## **Executive Summary**

Upper Lachlan Shire Council Community Strategic Plan 2042 identifies the five themes and strategic objectives:-

- A. Our Community We are a network of close-knit and well-supported communities that value our rural lifestyle.
- B. Our Economy We capitalise on the region's close proximity to Canberra and its position as a convenient location to attract industry and investment. We foster and develop diverse, adaptive, and innovative agricultural industry.
- C. Our Environment We appreciate our range of rural landscapes and habitats and are stewards of the natural environment for future generations.
- D. Our Infrastructure Infrastructure compliments our rural and historic landscapes whilst supporting healthy communities and industries.
- E. Our Civic Leadership Our leaders work collaboratively to meet the needs of the community, in an ethical and strategic manner.

Through the Community Strategic Plan, strategic goals are identified to guide Council in working to meet the needs of the community. In order to achieve these goals, adequate resources (human, financial and assets) will need to be provided by Council to ensure service delivery success. To achieve this, a Resourcing Strategy has been prepared.

The Resourcing Strategy is a key part of the Integrated Planning and Reporting framework for Council's long term planning. Council's Resourcing Strategy in relation to human resources is laid out in this Workforce Plan. Workforce planning strengthens Council's capacity to deliver on strategic and operational plans. It improves Council's understanding of its workforce profile and enables more informed responses to planned and unplanned change and allows for clearer strategies for people development and progression.

The actions and initiatives set out in this Workforce Plan can help increase employee engagement, in turn reducing operational costs, and create efficiencies across business processes.

Council's Workforce Plan has 6 Key areas:-

Key Area 1: Attract and Retain the right people

Key Area 2: Build and leverage the capability of our workforce

Key Area 3: Enhance Organisation Development

Key area 4: Enhancing Performance through management

Key Area 5: Provide a workplace that is focused on employee Work, Health and Safety (WHS)

Key Area 6: Improve Employee Relations through an 'employee voice' approach

#### Introduction

Upper Lachlan Shire Council's Workforce Plan outlines Council's commitment to ensuring Council has both the capacity and capability within its workforce to deliver positive outcomes for the organisation and ultimately the community it serves, now and into the future.

The Workforce Plan together with the Asset Management Strategy and Long Term Financial Plan, combine to form Council's Resourcing Strategy, ensure the provision of the necessary resources to implement Council's Delivery Program and Operational Plan, in order to achieve our Community Strategic Plan.

Councils' Workforce Plan aligns with key planning and strategy documents. Its focus is to ensure that we have a capable, skilled, engaged and sustainable workforce in order to deliver on our commitments.

This document meets the Office of Local Government's Integrated Planning and Reporting (IP&R) requirements where the resourcing strategy comprising asset management, financial Planning and the workforce planning form part of the integrated framework.

#### Scope

Council's Workforce Plan identifies high level workforce management issues and themes and guides our people management strategies over the next 4 years. It is anticipated that the local government industry and our workforce will be impacted by a variety of challenges during this period and as such this plan requires ongoing reviewed in line with the IP&R cycle.

### What is Workforce Planning?

Workforce planning is an integrated continuous process of shaping the workforce to ensure it is capable of delivering organisational objectives now and into the future. This process is designed to future-proof the challenges faced by Council by nurturing and developing a sustainable workforce through the application of aligned people management approaches.

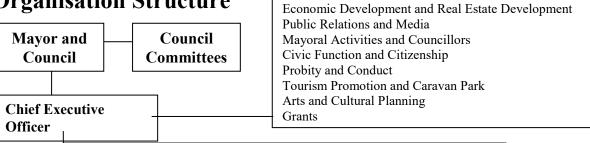

Workforce planning is an iterative and continuous process, which follows a cycle.

This process strengthens Council's capacity to deliver on strategic and operational plans; improves understanding of workforce profile; enables more informed response to planned and unplanned change; and allows for clearer strategies for people development and progression.

The actions and initiatives set out in a Workforce Plan can help increase employee engagement, in turn reducing operational costs, and create efficiencies across business processes.

#### Contextual Issues

The world of work has changed significantly over the last 5 years and continues to be in a state of flux. Globalisation, relentless advances in technology, the changing nature of work and an ageing workforce the main disruptors driving this transformation<sup>1</sup>. Add in the coronavirus pandemic, which has escalated the pace of change and spurred on 'the great resignation'. These factors further intensifying the war-for-talent and the need for organisations to reimagine their future workforce.

Local Government is not immune to the effects of these disruptions. The Australian Local Government Association national survey, conducted in 2022, provides insights into the workforce profile of local government. Not only did the report demonstrate evidence of the longstanding and escalating issue of an ageing workforce and major skills shortage, it also revealed that the sector is facing a significant shift in workforce expectations around flexibility<sup>2</sup>.

In 2013 the National Local Government Workforce Strategy 2013-2020 was released<sup>3</sup>. The National Strategy includes eight strategic themes, all of which are relevant to the NSW context and are adopted in the NSW Workforce Strategy. These include:

- Improving workforce planning and development
- Promoting local government as a place-based employer
- Retaining and attracting a diverse workforce
- Creating a contemporary workplace
- Investing in skills
- Improving productivity and leveraging technology
- Maximising management and leadership
- Implementation and collaboration

Additionally, regional and remote local government face a unique range of workforce challenges. The following have been identified as the key workforce issues facing regional councils<sup>4</sup>:

- Inability to compete with the private sector on remuneration
- Lack of suitably qualified and experienced applicants
- High demand across the labour market for specific occupations
- Shortage of skilled locals limited talent pool
- Remoteness hard to recruit skilled and experienced staff
- Lack of opportunity for career progression particularly in small councils
- Regional/remote location lack of facilities/housing.

Upper Lachlan Shire Council's experience reflects the challenges outlined above. Of note, as a result of a somewhat stable workforce, Council faces the additional challenge of modernizing its practices and processes in

amongst the ageing workforce. Council's intensifying need to digitize and implement technological change, seemingly incompatible with its workforce profile, reluctant to change as it heads towards retirement.

Upper Lachlan Shire Council is a significant local employer, providing a pipeline of employment across many occupations. With only a small rate-base, Council's ability to compete primarily through salary is limited. This constraint requires Council to consider and harness more fully its total value proposition for employees.

In developing an effective Workforce Plan, it is crucial to identify and understand current and future internal and external factors that may have an impact on the workforce. The 'influences' identified below will be monitored as part of the annual review of this strategy to ensure our response to workforce planning remains effective.
