## 1. WELCOME TO THE OPERATIONAL PLAN – MAYORAL MESSAGE

As Mayor, I am pleased to provide for public comment the Upper Lachlan Shire Council Operational Plan which is now on public exhibition.

The Operational Plan outlines the principal activities designed to address Council's strategic priorities, set out in 2026/2027 Community Strategic Plan (CSP), and allocates responsibility for each activity. The Operational Plan details the program actions and performance indicators against the CSP Strategic Pillars.

The Operational Plan forms part of Council's Integrated Planning and Reporting Framework and details Upper Lachlan Shire Council's principal activities and budget for the coming twelve-month period. It is a sub-set of the Delivery Program, which outlines a 4-year delivery agenda and aims to implement the strategies in Council's 20-year forward program established in the Upper Lachlan Community Strategic Plan 2042.

Upper Lachlan Shire Council has projected a consolidated operating deficit (before capital grants and contributions) of \$2.08 million for the 2026/2027 financial year. In addition, a net cash outflow of \$1.74 million is projected, which will be funded through transfers from both internal and external reserves to support the delivery of capital and operational expenditure programs.

Upper Lachlan Shire Council has developed a comprehensive capital works program totalling \$17.04 million for the 2026/2027 financial year. This represents a significant investment in the Shire's infrastructure and service delivery. The program includes key projects across plant and fleet replacement, roads and bridges, waste facilities, water supply and sewer infrastructure, as well as a range of initiatives driven by community priorities.

Council will continue to work in partnership with other levels of government to deliver services and outcomes that will result in generational benefits to our community. This will include seeking funding for major projects and managing the delivery of those projects to ensure that the identified benefits are realised.

Upper Lachlan Shire Council welcomes the participation from the community, the ratepayers and residents of the Shire into compiling the Operational Plan.

## **2. CHIEF EXECUTIVE OFFICER'S SYNOPSIS**

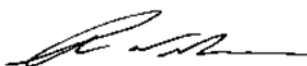

The Operational Plan is presented in accordance with the provisions of the *Local Government Act 1993* and *Local Government (General) Regulation 2021*.

Council has received pre-plan public submissions to the Operational Plan in December 2025. Councillors reviewed these submissions in March 2026 in developing this Operational Plan.

Council is subject to a maximum allowable increase of 4.90% in total rates income for 2026/2027, in line with the IPART rate peg, equating to an estimated additional \$473,000 in revenue. The 2026/2027 Operational Plan outlines Council's service delivery targets, key activities and major capital works program for the year. The Statement of Revenue Policy incorporates the following:

- *General (Ordinary) Rates will increase by 4.90%, dollar value increases will vary within individual rating categories;*
- *Water Supply Access Charge and Water Availability Charge will increase by 6% or \$37 per service;*
- *Water usage (consumption) charge will increase by 6%, dollar value increases will vary for each individual service dependent upon water consumption;*
- *Stormwater Annual Charges will have a zero increase;*
- *Sewer Best Practice Pricing Access Charges will increase by 4% or \$43 per service;*
- *Domestic Waste Management Annual Charge will increase by 7% or \$46 per service;*
- *Commercial Waste Annual Charge will increase by 7% or \$55 per service;*
- *Rural Waste Annual Charge will increase by 7% or \$20.90 per Assessment; and*
- *Domestic Waste Management Availability Charge and Commercial Waste Availability Charge will increase by 7% or \$19 per Assessment.*

The Draft Operational Plan is available for viewing at the Council Offices and Council libraries. The Operational Plan is also available to download from the Council's website [www.upperlachlan.nsw.gov.au](http://www.upperlachlan.nsw.gov.au) and a link is provided on Council's Facebook page.

## 4. ORGANISATION STRUCTURE

Section 332 of the Local Government Act 1993 requires Council to determine its organisational structure. The approved organisation structure comprises the Chief Executive Officer's office and three Council Departments as outlined below.

The Chief Executive Officer oversees the day-to-day operations of Council and provides professional advice to elected Council. Each of the three Departments has a Director who together with the Chief Executive Officer, form the senior management team. It is this team that has primary responsibility for delivering the activities identified in the Operational Plan.

## 6. COMMUNITY STRATEGIC PLAN AND DELIVERY PROGRAM

As part of the Office of Local Government's Integrated Planning and Reporting Framework Council has developed the following framework:-

- A 20 year Community Strategic Plan that outlines our broad vision for the future;
- A 4 year Delivery Program, accompanied by a full budget, that details what we will do to implement the Community Strategic Plan;
- A Resourcing Strategy to support the Delivery Program including a Long Term Financial Plan, Workforce Plan and Infrastructure Plan;
- An Operational Plan, which will record the planned activities and expenditure for each year;
- An Annual Report, which provides our community with a detailed account of progress made in implementing the Delivery Program and Community Strategic Plan.

The Operational Plan outlines the principal activities (i.e. services) to be provided to the community, along with the key service delivery measures that are being recorded to achieve the actions identified in the Community Strategic Plan and the Delivery Program.

The Local Government Elections took place on 14 September 2024. Council commenced the review of the Community Strategic Plan (CSP) with the Towards 2042 survey, Have Your Say page and community consultation being undertaken in February and March 2024 to inform Council aspirations and priorities for Upper Lachlan LGA. A revised CSP was developed after community engagement and was adopted by Council and has taken effect on 1 July 2025.

The Upper Lachlan Community Strategic Plan 2042 (CSP) took effect on 1 July 2022 and sets out a long-term vision for the region and identifies the key priorities and strategies for achieving this and the CSP has been revised after community consultation in 2024.

Upper Lachlan Shire Council has 5 Strategic Pillars (as outlined above) and Principal Activity functions (or known as business centres) that address each objective, the following information is provided for each Principal Activity:-

<b>Goal:</b>	Outlines the desired goal for that principal activity.
<b>Management Responsibility:</b>	Staff position responsible for the delivery of the activity.
<b>CSP Strategy:</b>	Links to the Community Strategic Plan priorities.
<b>Key Activities:</b>	The main activities or services delivered.
<b>Key Performance Indicator:</b>	Service delivery targets and quantifiable benchmarks.
<b>Delivery Program Actions</b>	Details the actions planned to meet our Community Strategic Plan and Delivery Program objectives.

Quarterly Operational Plan activity and budget reports are presented to Council to monitor our performance in delivering the services and activities identified for each principal activity. In addition, six monthly progress review reports are used to monitor the implementation of Council's Delivery Program.

## **7. COMMUNITY ENGAGEMENT**

In 2021, the Canberra Region Joint Organisation (CRJO) engaged consultants, Projectura, to undertake the development of a Regional Community Strategic Plan and individual councils Community Strategic Plans (CSP), a Community Engagement Strategy and facilitation of community engagements for seven local government areas (LGAs). In 2023, Projectura were commissioned to do a revision of the Regional CSP and individual council CSP for ten council LGAs in the CRJO.

The project schedule for delivery of the CSP is outlined as follows:-

- Inception in June 2023: Projectura conduct a desktop review of councils CSPs, relevant state strategies, research findings, data sets and develop communications kit.
- February - March 2024: Project for revision of CSPs is initiated. Prepare, design and deliver the broad community engagement strategy.
- April - June 2024: Analyse engagement findings and prepare Community Engagement Report.
- July - December 2024: Prepare, issue and present the Community Engagement Report for Council adoption and provided CSP outline to the newly elected Council.
- February 2025: Present to Council the CSP for public exhibition period of the CSP.

The community consultation utilised in the development of the CSP was extensive and included the following steps:-

- Key Stakeholder Identification and Engagement;
- Methods of Key Community Engagement Activities determined; and
- Community Engagement Strategy developed.

The community engagement activities in Upper Lachlan LGA included:-

- On-line Survey;
- Discussion Guide, Media Releases and Regional Wellbeing Survey;
- Council website and local media channels included dedicated Have Your Say Page;
- Total participation included 615 people or 7.10% of the population engaged.

Community consultation has been undertaken again in February and March 2024 as part of the review of the CSP and asks the local community some key questions in a survey so that Council can review the CSP and make sure it is an accurate representation of our LGA.

## **8. OUR STRATEGIC PILLARS AND PRIORITIES**

The Upper Lachlan Community Strategic Plan (CSP) 2042 identifies long-term desired community goals, corresponding strategic priorities addressing social justice principles and quadruple bottom line objectives. The Operational Plan identifies the actions and activities with accompanying performance indicators within each Strategic Pillar/Theme.

## **11. ECOLOGICALLY SUSTAINABLE DEVELOPMENT STRATEGIES**

Ecologically Sustainable Development is the effective integration of economic, social and environmental considerations in decision-making processes. The principles of Ecologically Sustainable Development are an integral consideration in the planning, design and development of the Upper Lachlan Shire.

Ecologically Sustainable Development principles are far reaching and influence every aspect of development when integrated holistically into the design and development processes. The concept of ecologically sustainable development requires new development to meet the needs of the present without compromising the ability of future generations to meet their own needs.

The objectives for all development within the Upper Lachlan Shire Council area are to:-

- (a) Achieve development that meets the needs of the present without compromising the ability of future generations to meet their needs,
- (b) Achieve development that improves quality of life, both now and into the future, in a way that maintains the ecological processes on which life depends,
- (c) Ensure high quality ecologically sustainable development outcomes for the rural and urban environment of Upper Lachlan Shire,
- (d) Achieve development which retains and enhances the natural environment, and
- (e) To ensure development of land is in accordance with the principles of Ecologically Sustainable Development, being:-
  - (i) The 'precautionary principle:-  
In the application of the precautionary principle, public and private decisions should be guided by careful evaluation to avoid, wherever practicable, serious or irreversible damage to the environment, and an assessment of the risk-weighted consequences of various options.
  - (ii) Inter-generational equity:-  
The present generation should ensure that the health, diversity and productivity of the environment are maintained or enhanced for the benefit of future generations.
  - (iii) Conservation of biodiversity and ecological integrity:-  
Conservation of biological diversity and ecological integrity should be a fundamental consideration.
  - (iv) Improved valuation, pricing and incentive mechanisms:-  
Environmental factors should be included in the valuation of assets and services, and those who generate pollution and waste should bear the cost of containment, avoidance or abatement, and the users of goods and services should pay prices based on the full life cycle of costs of providing goods and services, including the use of natural resources and assets and the ultimate disposal of any waste.

## **12. SECTION 7.11, SECTION 7.12 AND SECTION 64 DEVELOPMENT CONTRIBUTIONS PLANS**

### Section 7.11 Development Contributions Plan

Upper Lachlan Shire Council adopted the shire wide Section 94 Development Contributions Plan in 2007 (now known as a Section 7.11 Development Contribution Plan). The amount of the each contribution is outlined within Council's Schedule of Fees and Charges.

The Upper Lachlan Shire Council Section 7.11 Development Contributions Plan allows Council to set separate charges or contributions from developers where it is considered that additional demand will be placed on existing public facilities and amenities. For every new resident there will be an impact, and at some time in the future there will be a need to provide new infrastructure.

The Section 7.11 Development Contributions Plan aims to provide the Council with an appropriate mechanism to levy contributions on developers so that existing ratepayers and users of Council facilities and amenities are not unduly inconvenienced.

The contributions contained within the Section 7.11 Plan are set for the following items:-

- ◆ Roads
- ◆ Open Space and Recreation
- ◆ Community Facilities
- ◆ Waste Management
- ◆ Emergency Services
- ◆ Plan Administration

The Section 7.11 Development Contributions Plan amounts are increased each year in line with movements in the CPI (Consumer Price Index – Sydney Capital City Group December Quarter) and where applicable, land acquisition costs.

### Section 7.12 Development Contributions Plan

Upper Lachlan Shire Council adopted a Section 94A Development Contributions Plan in 2012 (now known as Section 7.12 Development Contributions Plan) for the Upper Lachlan Shire Council area for the following types of development; Power Station Developments, Wind Power Developments, Regional Developments and State Significant Developments.

The Section 7.12 Development Contributions Plan aims to assist the Council in providing the appropriate public facilities, which are required to maintain and enhance amenity and service delivery within the area.

## **14. GOVERNMENT INFORMATION PUBLIC ACCESS**

### **Types of Information held by Council**

The Government Information (Public Access) Act 2009 (GIPA) came into effect at 1 July 2010. Upper Lachlan Shire Council holds information, which relate to a number of varying issues. This information includes; policy documents, general information, registers, files, guidelines, plans, reports and other information.

There are a number of documents that are available for inspection free of charge and/or available on Council's Website [www.upperlachlan.nsw.gov.au](http://www.upperlachlan.nsw.gov.au). Council holds documents in both hard copy and electronic form that relate to a number of different issues concerning the Upper Lachlan Shire area. Documents may be available to the public upon request unless there is an overriding public interest not to do so.

### **Four Ways to Access Government Information**

The GIPA Act establishes four ways for the public to access government information from Upper Lachlan Shire Council. The means to access information include:-

#### **1. Open Access Information**

Council must publish open access information on its website, free of charge. Where it is not practical for Council to provide open access information on the website, the information will be made available free of charge in at least one other format. Please contact Council on (02) 4830 1000 to access information that is not currently available on Council's website.

#### **2. Proactive Release of Information**

Apart from open access information, Council will release as much other available information as possible either free of charge or at the lowest possible cost. There is a Mandatory Proactive Release and an Authorised Proactive Release of information.

#### **3. Informal Release of Information**

Members of the public may contact Council and ask for information. This is known as an informal request. Council may release information informally, subject to reasonable conditions.

#### **4. Formal GIPA Act Access Application for Release of Information**

If information cannot be accessed through any of the above ways, a formal GIPA Act Access Application may be necessary. This will be necessary if the public are asking for a large volume of information, if providing access would involve an extensive search, or if the information you seek involves personal or business information about third parties who must be consulted before the information can be released. GIPA Act Access Applications must be in writing, and accompanied by a \$30 fee. Processing charges of \$30 per hour may also be levied, depending on the type and amount of information sought.

## 16. WORKFORCE PLAN

Human resource management is controlled by the Manager Human Resources as delegated by Council Chief Executive Officer, who is responsible for the employment of all staff. Training Plans are developed by the Manager Human Resources in conjunction with Departmental Directors.

### Goals

The Workforce Plan has identified the following goals:-

- Enhance business processes through technological enhancements;
- Proactively navigate the management of the ageing workforce;
- Develop our place-based employment offering and building talent pipelines;
- Foster the relationship within the workforce and continue to build trust and engagement;
- Provide and promote a safe, healthy and caring workplace environment;
- Promoting personal and Council achievement through capability and skill building.

### Upper Lachlan Community Strategic Plan 2042 – Strategic Pillars

The Workforce Plan integrates with the Community Strategic Plan and consists of 5 pillars with strategic objectives:-

- **Our Community** – We are a network of close-knit and well supported communities that value our rural lifestyle;
- **Our Environment** - We appreciate our range of rural landscapes and habitats and are stewards of the natural environment for future generations;
- **Our Economy** – We capitalise on the region’s close proximity to Canberra and its position as a convenient location to attract industry and investment. We foster and develop diverse, adaptive and innovative agricultural industry;
- **Our Infrastructure** – Infrastructure compliments our rural and historic landscapes whilst supporting healthy communities and industries;
- **Our Civic leadership** – Our leaders work collaboratively to meet the needs of the community, in an ethical and strategic manner.

### Management Responsibilities

To provide a safe and healthy environment for all Council employees to undertake their daily duties by providing them with the following; effective training and development, annual performance review, mentoring programs, transparent recruitment and selection process, opportunity for succession planning, and maximise Council’s human resource investment.

### Human Resource Key Areas

- Attract and retain the right people;
- Build and leverage the capability of our workforce;
- Enhance organisation development;
- Enhancing performance through management;
- Provide a workplace that is focused on employee Work, Health and Safety (WHS);
- Improve employee relations through an ‘employee voice’ approach.

# DRAFT

Council has a clear and concise focus to address the areas in its Workforce Plan by carrying out the following initiatives:-

- Maximise every avenue to attract, develop and retain talented employees to address the current and future skill gaps at the Upper Lachlan Shire Council;
- Address emerging workforce issues such as skills shortages and the ageing workforce;
- Capitalise on apprenticeships and graduate recruitment programs to help Council stay ahead in the scramble for talent;
- Link Council recruitment program with our workforce planning needs;
- Ensure that Council position critical roles are filled with out delays.

The Upper Lachlan Shire Council Workforce Plan will act as the strategy to carry on meeting the needs and expectations, ever growing across the Shire. The plan will assist Council in delivering the services and program actions outlined in Council's Delivery Program over a four-year period.

## **17. INFRASTRUCTURE PLAN**

The Upper Lachlan Shire Council provides an extensive range of infrastructure assets comprising roads, bridges, footpaths, kerb and gutter, stormwater, water supply, sewer network, waste centres, operating and community buildings, recreation facilities, and plant and equipment.

The Council operates and maintains the infrastructure network to achieve the following objectives:-

- Ensure the infrastructure assets are maintained at a safe and functional standard as set out in the Infrastructure Plan;
- Achieve optimal use of resources by ensuring maximum life is obtained from an asset without compromising safety; and
- Ensure capital works and maintenance activities are undertaken in a manner to extend / prolong the life of the original asset and guarantee its suitability to current user requirements.

The key elements of the Infrastructure Plan are:-

- Taking a lifecycle approach to assets;
- Developing cost-effective management strategies for the long-term;
- Providing a defined level of service and monitoring performance;
- Understanding and meeting the impact of growth through demand management and infrastructure investment;
- Managing risks associated with asset failures;
- Sustainable use of physical resources; and
- Continuous improvement in asset management practices.

The purpose of Council's Infrastructure Plan is to determine the optimum method to provide the desired service levels for current and future generations. Given the value and importance of infrastructure assets, it is essential that they are well managed to ensure their future sustainability. Failure to adequately manage infrastructure assets is a key risk that could prevent Council from achieving strategic goals.

Upper Lachlan Shire Council's Community Strategic Plan expresses the desires and aspirations of the community and provides resources to assist Council in the determination of sustainable levels of service. The Long Term Financial Plan and Delivery Program are both informed from the Infrastructure Plan, which addresses the financial, engineering and risk management aspects of asset management.

## **18. STATE OF THE ROAD NETWORK**

There are three classifications of public roads within the Shire. The road classifications are: State Road, Regional Roads and Local Roads. The total length of public roads maintained by Council is 2,080 kilometres.

The total Local Roads length maintained by Council is 1,651 kilometres. There remains 1,110 kilometres (67%) of Council's own Local Roads system that are still unsealed.

With the bitumen sealing of the remaining unsealed Local Roads beyond reach in the foreseeable future, Council will focus on maintenance grading and gravel resheeting for substandard lengths of unsealed roads to ensure road safety and minimise potential liability. The Council is endeavouring to achieve a gravel resheeting program to reach a 25-30 year replacement cycle.

### **State Road**

Council undertakes maintenance for Transport for NSW under a Road Maintenance Council Contract (RMCC) on the Goulburn to Bathurst Road (Main Road 54). The length of road maintained is 108 kilometres of which 93 kilometres are within the Upper Lachlan Shire. These works are carried out on a full cost recovery basis.

### **Regional Roads**

The Regional Roads Block Grant provides funding of approximately \$1.8 million each year for expenditure on 251 kilometres of regional roads and bridges for maintenance, repair, bitumen resealing, asset renewals and improvement works for the following Regional Roads:-

- MR52 – Crookwell / Gunning to Queanbeyan Road
- MR241 – Gunning to Rye Park Road
- MR248 – Taralga to Boorowa Road
- MR256 – Goulburn to Oberon Road (Tablelands Way)
- MR258 – Wombeyan Caves Road

### **Local Roads**

A Roads Hierarchy has been established for maintenance and capital works on local roads. Upper Lachlan Shire Council allocates a minimum of \$1.3 million of its own revenue to fund Local Roads operating and capital road maintenance and repair works.

### **Roads to Recovery Program**

The Federal Government Roads to Recovery Program allocates funding each year for Council to expend on roads in 2025-2029. The five year program total available funding for expenditure on roads is \$10.586 million.

## 19. COUNCIL STATEMENT OF REVENUE POLICY

### RATE PEGGING – MAXIMUM RATE INCREASE

Council has adopted a permissible rate increase of 4.90% in accordance with the determination of IPART and the statutory limit set by the Office of Local Government. The increase is applicable to the total revenue raised in General Ordinary Rates in 2026/2027.

In accordance with Section 566 (3) of the Local Government Act 1993, the Minister for Local Government has determined a maximum rate of interest payable on overdue rates and charges for the 2026/2027 rating year and interest payable will be 10.50% (to be determined).

### ORDINARY (GENERAL) RATES

Ordinary Rates are levied for the purpose of financing Council's Ordinary General Fund activities in accordance with Sections 493, 514-518, of the Local Government Act 1993.

Council proposes the following ordinary rates for 2026/2027 based on the land valuation data supplied by the Valuer Generals Office with a valuation base date applicable of 1 July 2024.

## SEWER BEST PRACTICE PRICING STRUCTURE

Residential Sewer properties are levied an Annual Access Charge in accordance with Sections 501 and 552, of the Local Government Act 1993, and Best Practice Pricing Guidelines set down by Water NSW.

Non-Residential Sewer properties are levied in accordance with Sections 502 and 552, of the Local Government Act 1993 and will have a charge not less than the Annual Residential Unconnected Sewer Access Charge. The Non-Residential Sewer charge is based on a two-part tariff with an annual access charge and a uniform sewer usage charge/kl. This charge is calculated as follows:

$$B = SDF (AC + C \times UC)$$

Where:

B = Annual non-residential sewer bill (\$)

C = Customer's annual water consumption (kl)

AC = Customer's water service access fee (proportional to meter size)

SDF = Sewer Discharge Factor (standard adopted, unless otherwise proven)

UC = Sewer usage charge (\$/kl)

## DOMESTIC WASTE MANAGEMENT - HOUSEHOLD COLLECTION SERVICE

The Domestic Waste Management (DWM) Service is an Annual Charge for the provision of domestic waste management in accordance with Section 496, of the Local Government Act 1993. This service is unable to be subsidised by Council or profit from results. Subsequently Council manages the service as an independent fund.

**Note: Domestic Waste Management Service and Availability Charges are applicable to all residential properties within serviced towns and villages and will also apply to rural properties where a Domestic Waste Management service is available and utilised.**

The level of service will consist of a kerbside collection service:

- 1 x 120 litre mobile bin for household waste to be collected once per week.
- 1 x 240 litre mobile bin for recyclables to be collected once per fortnight.
- 1 x 240 litre mobile bin for organic garden waste to be collected once per fortnight.
- Those ratepayers paying for a Domestic Waste service will continue to pay entry fees at the Waste Transfer Stations throughout the Shire.

## COMMERCIAL WASTE CHARGE

The Commercial Waste Service is an Annual Charge raised in accordance with Section 501, of the Local Government Act 1993.

**Note: The Commercial Waste Charges are applicable to all non-residential properties within serviced towns and villages and other defined service areas. They are charged based on a per service supplied basis (i.e. per collection), with a minimum of one charge per assessment. A combination of different numbers of waste or recycling bins may be utilised by individual commercial waste users by arrangement.**

A single service will consist of:

- 1 x 120 litre mobile bin for general waste to be collected once per week.
- 1 x 240 litre mobile bin for recyclables to be collected once per fortnight.
- 1 x 240 litre mobile bin for organic garden waste to be collected once per fortnight.

## RURAL WASTE CHARGE

The Rural Waste Charge is not classified as a Domestic Waste Service and is an Annual Charge raised in accordance with Section 501 (1), of the Local Government Act 1993.

**Note: The Rural Waste Charge will apply to all properties that are not subject to a Domestic Waste Management Charge or a Commercial Waste Charge.**

Conditions:-

- The Rural Waste Charge is levied on a per Rateable Assessment basis.
- Application may be made to Council, in accordance with Section 610E, of the Local Government Act 1993, to waive multiple Rural Waste Charges on land where the owner of the land pays the charge on another Assessment.
- Ratepayers who pay a Rural Waste Charge will receive a Rural Waste Card which permits free access to all tips for the disposal of domestic waste and sorted recyclables provided they present their card for inspection at the entry to the rubbish tip depots.
- Prior year Rural Waste Cards will be accepted at Council's tips until the end of July of the year following issue.

## STORMWATER MANAGEMENT SERVICE CHARGE

The Stormwater Management Charge is levied for the specific purpose of improving stormwater management and drainage infrastructure enhancement. It is applicable to all urban land within a city, town or village that is categorised as residential and business, excluding vacant land. Details of the proposed stormwater capital expenditure program are included in Council's capital works budget.

The Stormwater Annual Charge is levied in accordance with the Office of Local Government, Department of Premier and Cabinet Circular 06-18, and the Local Government (General) Amendment (Stormwater) Regulation 2006, under Section 496A, of the Local Government Act 1993.

## **PRICING POLICY FOR GOODS AND SERVICES**

The Council Fees and Charges Structure is in accordance with the attached Annexure document. Included is a Schedule of Charges for private works. It should be noted that some fees are fixed by Regulation and are shown in the document as the current fee, which will be varied according to changes made by Regulation.

Council will impose a fee or charge for all services provided. The amount of any fee or charge will seek to recover all costs, except in cases where Council considers a community service obligation is appropriate in providing a service.

The Schedule of Fees and Charges reflects this policy and Council's Policy is produced below:

### **PRICING POLICY PRINCIPLES**

#### **Category 1 - Full Cost Recovery**

Recovery of all direct and indirect costs associated with providing a service, including in some cases, making provision for future capital expenditure.

#### **Category 2 - Partial Cost Recovery**

Subsidised operations, which are of benefit to the community as a whole and undertaken voluntarily by Council or as a requirement of the Act.

#### **Category 3 - Market Pricing**

Is where Council provides a similar service 'in competition' with other Councils or agencies where an alternative service provider is available. This category also includes prescribed or recommended fees. Council will set reasonable fees and will not use subsidies to aggressively price others out of the market.

#### **Category 4 – Disincentive Pricing**

Where Council sets a fee structure:-

- (i) For non-core activities to encourage customers to seek alternative service providers to provide the service. This applies to activities where Council would prefer not to provide the service in the long term.
- (ii) To promote compliance with Council or legislative regulations in order to encourage people to 'do the right thing' e.g., interest charges on overdue rates, dog release fees, stock impounding fees, library fines, etc.

#### **Category 5 - Sewer Service Pricing**

Where Council sets a fee structure:-

1. Follows the Water NSW Best Practice Pricing Guidelines and is a combination of uniform annual charges, access and usage charges.
2. Collects revenue to fund the sewer system from ratepayers who actually benefit from availability or use of Council's sewer system.
3. Ensures Council derives sufficient income to operate the sewer system and provide for future capital expenditure and debt servicing.
4. Send appropriate pricing signals, can be administered relatively simply and inexpensively and can be understood by the public.
5. No cross-subsidisation between residential and non-residential categories.

# DRAFT

## Category 6 - Water Supply Service Pricing

- (i) Is based on a combination of service and usage charges.
- (ii) Collects revenue to fund the water supply system from the people who actually benefit from availability or use of Council's water supply.
- (iii) Ensures Council derives sufficient income to operate the water supply system, irrespective of seasonal fluctuations and provides for capital and debt servicing.
- (iv) Assists in the deferment of capital works.
- (v) Can be administered simply and cheaply and be easily understood by the public.

## Category 7 - Section 7.11 / Section 7.12 and Section 64 Development Contributions Pricing.

To ensure Development Contributions reflect the costs incurred in providing community facilities/services, open space, recreational facilities, water supply and sewer services required to meet the additional needs of the community created by new development and in doing so, ensure the local amenity does not diminish.

## Category 8 - Set by Statute, Regulation, or Government Department.

Certain fees and charges are set by Regulation, by Ministerial Approval or by State or Federal Government pricing policy.

### **PROVISION OF SERVICES**

Council has examined the need for charges relating to the extension of services to land. The provision of services and financial costs with the servicing of land was adopted stating that:-

1. The provisions of the Local Government Act 1993 for liability of charges be applied, that is, any land or buildings within 225 metres of a water main or 75 metres to a sewer main (gravity drained).
2. No discounting of past charges will be given in connecting properties to Council services.
3. Council underwrite extension and service costs in servicing multiple allotment connections with subsequent recoupment from the individual connections as they occur.
4. Council allow for a replacement factor cost for any service extension where there is a maintenance component required with the mains extension.
5. Service extension costs being independent of the Section 64 Development Contributions Plan charges.

# DRAFT

## **PRIVATE WORKS**

Council will undertake private work in accordance with adopted rates for the hire of plant and equipment. Private work will be in accordance with the guidelines in Council's Private Works (Projects and Plant Hire) Policy. Private work will only be carried out subject to the availability of Council plant and equipment and without significant disruption to existing work programs.

The Council's Infrastructure Department administer and implement the Private Works (Projects and Plant Hire) Policy. The policy is designed to protect public funds and the integrity, security and reputation of the Council and its staff and maintain a high level of services to the community.

Noxious weed control activity deemed as private work will also be included, with arrangements to be approved by the Director Environment and Planning. With respect to determining Quotations for Weed Control activities on private property, regard will be given to the general "community service" of providing a reasonable and affordable price, with Council's hire rates to be adjusted in order to increase the level of private work activity. This will provide further opportunities to maximise the use of plant and equipment and achieve more efficient use of Council's resources.

In all cases written quotations will be issued, with acceptance by Signed Agreement required for work in excess of \$500.00. In all cases, sundry debtor accounts will be issued for work carried out and are payable within one (1) month.

## **BORROWINGS**

### **New Borrowings**

Loan funding is generated from financial institutions, i.e. banks, and is utilised in accordance with Council's Borrowings / Loan Policy for capital projects, upon approval of the Office of Local Government. All borrowings are secured against the rate income of the Council.

The draft Operational Plan anticipates \$1.2 million in new borrowings for 2026/2027 to support the construction of the Waste Transfer Station (WTS) at a total cost of \$2.7 million. Interest on the proposed WTS loan is estimated at \$73,000 for 2026/2027, based on an assumed borrowing from the NSW Treasury Corporation (TCorp) at an indicative interest rate of 6.50% over a 20-year loan term.

### **Loan Refinancing**

There is no loan refinancing in the 2026/2027 financial year for existing loan borrowings.

# Pricing Statement - Upper Lachlan Shire Council

## Purpose

The purpose of Upper Lachlan Shire Council's Fees and Charges Pricing Policy is to ensure that all fees and charges are set in a manner that is transparent, equitable, financially sustainable, and consistent with legislative and policy requirements.

It is intended to provide transparency to residents, businesses and other stakeholders regarding:

- The cost of providing Council services
- The extent to which services are subsidised by general rate revenue
- The level of contribution required from users
- The broad approach used by Council when setting price

## Pricing Categories

Council groups its fees and charges under the following categories for indicative purposes:

Code	Name	Description
1	Full Cost Recovery	The price for this good or service is set to recover total operating costs, including both direct and indirect costs associated with providing the service. This may include, where applicable, provision for future capital expenditure and is consistent with the principles of National Competition Policy.
2	Partial or Zero Cost Recovery	The price for this good or service reflects a subsidised level of cost recovery where the service is provided for the benefit of the community as a whole, or where Council has a community service obligation or legislative requirement to provide the service.
3	Market Pricing	The price for this good or service is determined by benchmarking against prices charged for comparable goods or services by similar councils or market providers. This approach is applied where Council provides services in a competitive environment and alternative service providers are available. Council seeks to set reasonable fees and does not use subsidies to distort market competition.
4	Sewerage Service Pricing	Pricing is based on a combination of service and usage charges. This approach ensures revenue is collected from those who benefit from access to and use of Council's sewerage system, provides sufficient income to operate the system, contributes to future capital works and debt servicing, and delivers appropriate pricing signals. No subsidisation occurs between residential and non-residential categories.
5	Water Supply Service Pricing	Pricing is based on a combination of service and usage charges. This approach ensures revenue is collected from those who benefit from access to and use of Council's water supply system, provides sufficient income to operate the system, supports capital investment and debt servicing, and assists in managing demand and deferring capital works.
6	Section 94 / Section 64 Contributions Pricing	Pricing is set to ensure developer contribution charges reflect the costs incurred in providing community infrastructure, open space and recreation facilities required to meet the additional demand generated by new development, in accordance with relevant legislation.
7	Regulatory	The price for this good or service is a statutory charge set by legislation or government regulation. These charges may change during the year as legislation is updated. Amounts shown are indicative of the regulatory requirements at the time of publication.

## Goods and Services Tax (GST)

Fees and charges are classified in accordance with GST legislation:

- **Y** – GST applies and is included in the fee
- **N** – GST does not apply and is excluded from the fee

When determining fees and charges, Council considers a range of factors including:

- The cost of providing the service or facility
- Legislative and regulatory requirements
- Market conditions and pricing by similar councils
- The level of community benefit or public good
- The capacity of users to pay

## Disclaimer

**a)** Council reserves the right to amend any fees and charges contained in this document, where it is considered reasonable and appropriate to do so, in accordance with the Local Government Act 1993 and associated regulations.

**b)** While every effort has been made to ensure regulatory and statutory charges are accurate at the time of publication, such charges remain subject to change as a result of legislative or regulatory amendments outside the control of Upper Lachlan Shire Council.
